“CLOSETS ARE FOR CLOTHES”

This semester we will be launching a gender affirming clothing closet. Everyone can donate clothing to trans and gender transitioning students allowing them access to gently used or new gender affirming clothing. The purpose of this service is to alleviate the often heavy financial burden of transitioning or coming out. While members of LGBTQIA+ community are given priority access to this resource, all S&T students who have a need for this service may use it accordingly.

“COMMUTER’S COMMODITIES”

This semester we will open our food and supply pantry and we are currently taking donations. You can donate non-perishable food, small household goods, cleaning supplies and hygiene products to our food and supply pantry. This will help our commuter students and students who may be in need.

Want to make a difference? We are now accepting donations of food, clothing, personal care, and small household items for distribution to students in need.

Contact: Cynthia Guess, cguess@mst.edu

Each issue has a mystery item hidden somewhere in the newsletter. It could be in a picture, within text, in the margins, anywhere! This issue mystery item is a pencil. Find the mystery item for a chance to win a prize. Email Cynthia at cgguess@mst.edu with your answer. The first person to respond with the correct answer will be the winner.

MINERWELLNESS.MST.EDU  @SANDTMINERWELLNESS
What made it possible for Dr. Sally K. Ride to travel into space is complex, encompassing not only the Second Wave of Feminism and Ride's awesome accomplishments, but also the cultural understanding that the space shuttle transitioned spaceflight technology from one of dangerous exploits to a safe, routine, and domesticated technology. Ride's 1983 spaceflight illuminates an evolutionary path of changing gendered performances in American technology. The presentation examines how Cold War gendered technology and a perceived crisis of masculinity influenced the American public image of the astronaut. Americans viewed the astronaut's performance with technology as somehow uniquely democratic, if not more masculine, than the Soviet cosmonaut. Men controlled the technology in space and women remained passive actors with technology in the home. Women's call for the right to spaceflight remained unanswered until male astronauts conquered space. The National Aeronautics and Space Administration (NASA) commenced recruiting women into the astronaut corps in 1978. Women's recruitment came shortly after the shuttle's commissioning partly because of the belief that the new space transportation system no longer required a crew of "physically fit and rigorously trained men" but also due to NASA's view that the shuttle's purpose was that of "designing a home in space".
10 BEST JOB INTERVIEW TIPS FOR JOBSEEKERS

Succeeding in job interviews takes research, practice, and persistence. The more effort you put into your interview preparation, the more success you’ll see in obtaining job offers especially if you remember and follow these ten job interviewing tips.

1. Conduct Research on the Employer, Hiring Manager, and Job Opportunity
2. Review Common Interview Questions and Prepare Your Responses
3. Dress for Success
4. Arrive on Time, Relaxed and Prepared for the Interview
5. Make Good First Impressions
6. Be Authentic, Upbeat, Focused, Confident, Candid, and Concise
7. Remember the Importance of Body Language
8. Ask Insightful Questions
9. Sell Yourself and then Close the Deal
10. Thank Interviewer(s) in Person, by Email, or Postal Mail

“I am prepared to sacrifice every so-called privilege I possess in order to have a few rights.”

Inez Milholland
Suffragist, 1909
